isopropylmethylphenol.

Claim 5 (currently amended): The external preparation for athlete's foot treatment according to any one of claims—

1 4 claim 1, wherein the anti-trichophyton drug is selected from benzylamine type, allylamine type, thiocarbamic acid type and imidazole type antifungal agents.

Claim 6 (currently amended): The external preparation for athlete's foot treatment according to any one of claims—

1-5 claim 1, wherein the anti-trichophyton drug is one kind selected from butenafine hydrochloride, terbinafine hydrochloride, tolnaftate, bifonazole, ketoconazole, neticonazole hydrochloride and lanoconazole.

Claim 7 (currently amended): The external preparation for athlete's foot treatment according to any one of claims—

1 6 claim 1, wherein the anti-trichophyton drug and 1
menthol are blended.

Claim 8 (currently amended): The external preparation for athlete's foot treatment according to claim 1 comprising
